Our full lace wigs

Are constructed so that the entire wig cap is made of lace. All hair is hand tied to the lace base of with double knots. in the front, the hair is tied with single knots and bleached for an even more natural look. They are comfortable to wear because the mesh lets air through. This type of wig is more versatile and easier to style in many ways. When applying and gluing, the lace wig, a flawless, natural and undetectable hairline is created. The best adhesives are acrylic-based, which are better for the skin because they don't cause skin irritation or rashes like other adhesives.

These wigs are made from real human hair and need to be styled like real hair after washing and conditioning.
